Four International Mission Projects in Three months

Children from Living Waters Feeding Center and Living Waters Academy

CRAZY, BUSY does not adequately describe the planning, preparation and implementation that it took to complete three successful international mission trips in a period of just over three months. Coming right on the heels of Daryl and Mary Jo's busiest time of year for their business, Daryl challenges everyone from the Living Waters Board, his family and yes, he believes even his God with his latest vision to reach out. With multiple opportunities presenting themselves with four separate projects, three having to do with water purification in the South Pacific and in the Philippines and the fourth with our orphan care project in Kenya, Daryl traveled approximately 35,000 miles from November 11, 2014 to February 27, 2015.

Living Waters Feeding Center

In a 48 hour time period 24 children became total orphans with absolutely no one to care for them or meet their needs. We were approached by our staff and asked if we could take them on. The budget constraints were explained and they were asked "how do you think we can take them on?". Their reply was "we will all have a little less so we can take them in". Hearing this, we knew we would step out in faith at that moment and that God was asking us to help His little children in Kaswanga. When we did blood screening for diabetes on all of our 175 children we were shocked to see that many had blood sugar readings of half of what should have been expected. Most had not eaten since they were fed at the feeding center the day prior. Even though they were getting one good meal a day they were still undernourished. Most of us could not function with blood sugar levels ranging between 41 and 50. We knew right then we had to take another giant leap of faith and start a breakfast meal program. All of the children will now come by the feeding center and get porridge on their way to school and return at lunch time for a hot meal.

Please see page two on how you can help.

Sewing Center

Young girls learning the sewing trade

On November 16, Daryl arrived in Abemama, Kiribati to install a water purification system at the Kamau SDA Boarding Academy. Although there were challenges to this installation, the recent report coming from this island was that this system provided the only available water for the recent first Alumni weekend with over 200 people present. This was a dream of Daryl's to one day do mission work in the Pacific South Seas.

Kamau Academy Installation

Navagan River and the North Philippine Union Conference were recipients of water purification systems in the Philippines in 2014. 1000 people will benefit from the Navagan River installation.

Navagan River Installation

Manila Installation

Living Waters continues to rely on God impressing individuals to contribute to this worthy cause in order to continue operations.

Living Waters is a faith based organization providing humanitarian evangelism/aid and supported by donors like you.

Mary Jo and Daryl Oft
